# Important notice and disclosure

This presentation (the “**Presentation**”) is for informational and discussion purposes only and does not constitute or form any invitation, offer for sale or subscription of, or solicitation of any offer to buy or subscribe for, an interest in Nevateam Partners L.P. (the “**Fund**”) or any interests or other securities in any other entity connected to the Fund. This Presentation has been prepared to provide preliminary and general information about the activity and business of the Fund. No legally binding obligations will be created in, implied by, or inferred from this Presentation. This Presentation does not purport to contain all of the information that may be required to evaluate an investment in the Fund. This Presentation is qualified in its entirety by the terms of the definitive governing documents to the Fund, which are expected to be available in due course from the general partner of the Fund (the “**General Partner**”) or its representatives. In the event that any of the terms of this Presentation are inconsistent with or contrary to the governing documents of the Fund, the governing documents of the Fund shall prevail.

Any application to subscribe for interests in the Fund must be made based on the legal governing documents of the Fund. The information in this Presentation should not be relied upon as a representation or warranty, express or implied, of the General Partner, the Fund nor any of their respective principals, affiliates, advisers or representatives and nothing herein shall be relied upon as a promise or representation for past or future performance or results. No reliance should be placed on the fairness, accuracy, completeness or correctness of the information, opinions, assumptions, projections and forecasts contained in this Presentation. The information contained herein is subject to change, modification, addition or updating without notice. The past performance or achievements of the Fund's principals or persons or entities affiliated therewith or of any of the other persons mentioned in this Presentation is not indicative of, and cannot guarantee, any future performance or results.

This Presentation may contain statements that constitute forward-looking statements, within the meaning of the Private Securities Litigation Reform Act of 1995, as amended, which involve risks and uncertainties. Such forward-looking statements are not guarantees of future events or actual results. Performance or results of the Fund may differ from those expressed in the forward-looking statements because of various factors, such as known and unknown risks, uncertainties, and assumptions. Reliance should not be placed on these forward-looking statements, which reflect the view of the General Partner, its principals or representatives as of the date of this Presentation only. The General Partner does not undertake any obligation to update or revise any of the forward-looking statements, whether as a result of new information, circumstances, subsequent events, developments or otherwise.

Any decision to invest in the Fund, must be subjected to independent analysis of each prospective investor, including an examination of the legal, economic and tax aspects of the investment, as well as a comprehensive review of the Funds governing documents and all potential hazards and risks inherent to such an investment, including with the assistance of applicable advisors. Prospective investors are not to construe the contents of this Presentation or any prior or subsequent communications from the General Partner, its principals or any of its representatives or affiliates, as legal, tax, regulatory, accounting or investment advice. An investment as contemplated herein will involve significant risks and prospective investors should have the financial ability and willingness to accept the risks inherent in such an investment (including, a total or substantial loss of their investment). There can be no assurance that the Fund will achieve its investment objectives. Each investor should consult with and rely on its own personal counsel, accountant or other advisor as to legal, tax and economic implications of an investment in the Fund and its suitability for such investor.

The interests in the Fund will not be registered under the U.S. Securities Act of 1933, as amended, the Israeli Securities Law, 5728-1968, or under any applicable securities laws of any state, country or other jurisdiction (“**Applicable Securities Laws**”) and may not be offered or sold without compliance with Applicable Securities Laws. Investors in the Fund will not benefit from the rules and regulations made under the Applicable Securities Laws for the protection of investors. No governmental authority, including but not limited to, the Israel Securities Authority (“**ISA**”) and the U.S. Securities and Exchange Commission (“**SEC**”), has passed upon the merits of an investment in the Fund, nor has the ISA, SEC or any other authority passed upon the adequacy or accuracy of this Presentation or any other document relating to the Fund, and any representation to the contrary is unlawful. The interests in the Fund are only being offered to a limited number of potential sophisticated investors subject only to exemption from the requirement to publish a prospectus under all Applicable Securities Laws by means that do not constitute a public offering of securities in accordance with any and all Applicable Securities Laws. Any interests offering shall be subject to prospective investors meeting certain suitability and eligibility standards (e.g., “accredited investors”, “qualified investors” or similar threshold concepts under the Applicable Securities Laws), as shall be detailed in the applicable governing documents of the Fund.

Certain information and data contained in this Presentation have been compiled from resources reasonably believed reliable; however, such information and data have not been independently verified. Insofar as any statements made in this Presentation involve matters of opinion, assumptions, projections, anticipated events or estimates, whether or not expressly stated, they are set forth as such and not as representations of fact, no representation is made as to their accuracy or that all appropriate assumptions relating thereto have been considered or stated and actual results may differ substantially from those set forth, projected, forecast or estimated herein.

This Presentation is strictly confidential and for internal use only for the sole purpose of evaluating a possible investment in the Fund. Under no circumstances are its contents to be copied, reproduced or distributed to any party, the public, press or otherwise. This Presentation is intended for the person or entity to which it has been delivered. Neither this Presentation nor any of its contents may be used for any other purpose without the prior written consent of the General Partner or its representatives and shall be immediately returned to the General Partner, upon its written request or in the event the recipient does not wish to pursue an investment as contemplated herein.

None of the General Partner, the Fund or any of their principals, affiliates, advisers or representatives shall have any liability whatsoever for any loss arising, whether directly or indirectly, from any use, reliance or distribution of this Presentation or its contents or otherwise arising in connection with this Presentation, to the maximum extent permitted by applicable law.

# About NevaTeam

NevaTeam Ventures is an **Agri-Food Tech ESG Impact driven Fund** with world-class knowledge and expertise that specializes in identifying and investing in cutting-edge companies and technologies, contributing to the streamlining and increase in world food production in a sustainable way

# Foods that can go **extinct** soon

Climate change is negatively affecting the world's food supply in a variety of ways

## Rice

Croplands are projected to shift, and become unsuitable for rice

## Fish

By the end of the century, a quarter of the sustainable fish catch could be gone

## Wheat

Global warming threatens most of the world's wheat production

## Bananas

"Tropical Race 4," is a disease that is wiping out banana plantations across the globe

## Wine

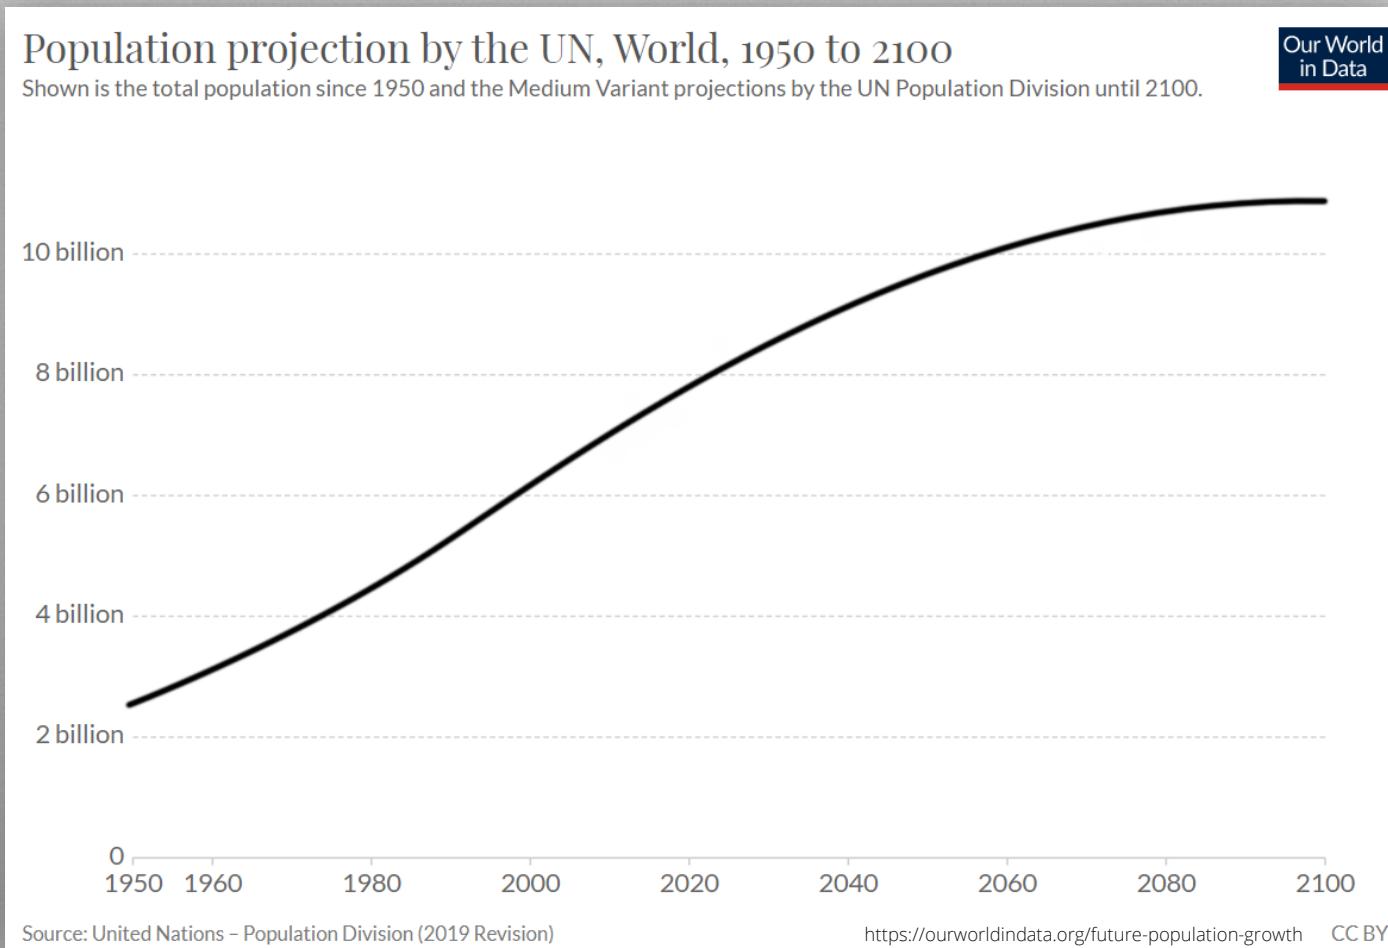

Potential drop in wine production of about 85% over the next 50 years

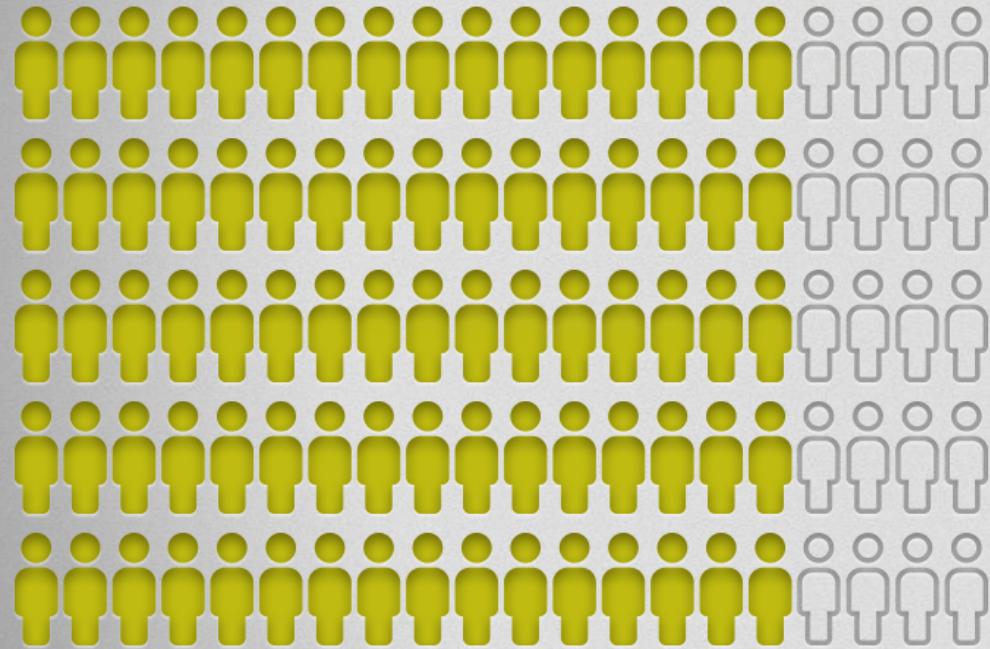

## Coffee

88% of Latin America's coffee-suitable areas could reduce by 2050

# The world's population is growing

# There will be more people to feed by 2050

The world's population today is **7.8 Billion**

**In 2050 we will need to feed 10 Billion people , that's an addition of 2.2 Billion people to the world's population**

**70%**

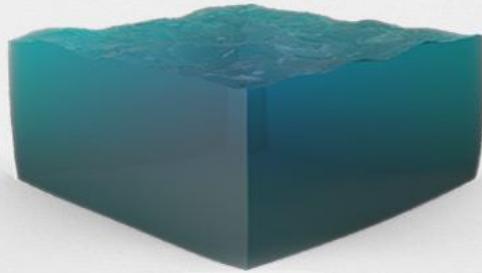

# Causes for food shortage

**Demographic change**

**Climate change**

**Scarcity of natural resources**

**Urbanization**

Innovation is  
**accelerating**  
due to global conflicts

- Border control
- Limitations on import/export
- Lack of domestic products

**In order to meet these challenges, the world needs advanced technologies  
in agriculture, food production and sustainable products**

# New developments in Agri-Food Tech induce a change

Harvest robotics      **Water**      Restaurant Tech  
**Sunless production**      Farm Management  
Post-harvest applications      **eGrocery**      Bioenergy      **Crop management**  
Yield forecasting      **packaging**      Field Monitoring      Food procurement  
*Biotechnology special crops*      **Soil Sensing**      Waste management  
Water Monitoring      Nutrition applications      Food delivery  
**Precision Irrigation**      *Insect Sensing /Monitoring*      Innovative food  
Food safety detection      **Grocery ecommerce**

# Propelling the local Agri-Food Tech industry

Multinationals  
with activity in  
Israel

Local  
Corporations

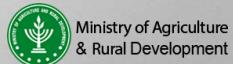

Incubators &  
Acceleration  
programs

Academic R&D

Non-Dilutive  
funding

# Israel's global influence

# Portfolio

**arugga**  
AI FARMING

Arugga is developing **autonomous ground robots** to treat and monitor all plants in the greenhouse, in order to replace labor, reduce cost and increase yield.

- Began commercial sales in the US, Australia and Finland in 2022
- Collaboration with Biobest, one of the world's leading companies in biological control of pests and diseases & natural pollination as a shareholder and a distributor.
- The Company has demonstrated two new modules, including a 3rd party pest detection module and a lowering module.

# Portfolio

Brevel developed groundbreaking technology for the **cultivation of high-quality microalgae** at unprecedented costs

- Completed an \$18.5M seed round led by NevaTeam , EIC and strategic investors.
- received funding from the European Union's Horizon 2020 research and innovation program under grant agreements nos. 815821 and 946409.
- Collaboration with top tier food companies in Europe, US and Israel.
- The Company intends to move to its new operational facility in Kiryat Gat in Q4/2023

# Portfolio

## SOLATO

SOLATO introduces a countertop, **single serve rapid freezing machine. Using capsules to produce gelato, frozen yogurt, sorbet and frozen coffee.** Solato's unique solution allows them to produce fresh ice cream in about 60 seconds, with over 25 flavors.

- Began commercial sales in U.S.A and Canada with top-tier customers.
- Reduction of carbon footprint & energy consumption while Using sustainable and recyclable capsules.
- Strong patented technology with over 100 patents all over the world

# Portfolio

BlueTree enables the global production of **great-tasting reduced-sugar natural beverages**.

BlueTree's proprietary technology and system physically and selectively reduces sugar content (up to 50%) from a 100% squeezed natural juice

- Scale-up pilot in Priniv (Israel)- Sugar reduction for 1M liter annually in Orange Juice.
- Strong base of shareholders including Finistere, Tnuva, Tempo and Our Crowd.
- Dairy- Excellent results with skim milk - 75% sugar reduction based on the same technology.

# Portfolio

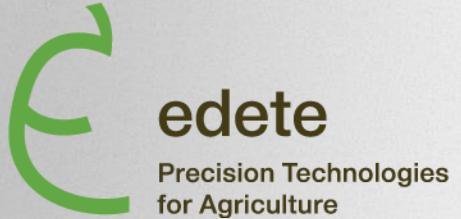

Clarifruit's AI-powered QC software platform uses **advanced computer-vision** technology to **automate fresh produce quality inspection** and evaluation. The platform also helps **digitize and standardize the quality control process**, giving the company accurate and high-quality real-time data, as well as actionable insights.

- Began commercial sales to top tier companies such as Dole, Santa Maria, Pink lady and others.
- Recently completed Series A funding of \$12M
- SaaS revenue model for different customer base.

# Portfolio

Edete is developing **artificial pollination technology as a service**.

Edete's technology is based on two phases:

- A. Pollen production and storage
- B. Artificial pollination pollen dispersal.

- Successfully completed a commercial pilot with the biggest grower in the US with an increase of over 40% in yield.
- Advanced R&D in other lucrative crops such as Pistachios, apples, avocados and cherries

# Inspiring vision

**“** If the circumstances had not demanded it, I would not have become a soldier, but rather a farmer and agriculturist. My first love was, and remains, manual labor; sowing and harvesting, the pastures, the flock and the cattle.

Prime minister Ariel Sharon

**“** The future of humanity depends on our ability to create new ways to produce food. The future of agriculture is not based on expanding to a new land; rather, using less land more efficiently with new technological developments

President and Prime minister Shimon Peres

# Strong Diversified Team

## Nadav Peres

Partner **Petra Ventures**, Independent advisor and investor at several startup companies in **Health care & ecommerce** spaces , Founded and managed two **D2C internet** companies in the US and Canada, BA degree in **Communications & Marketing, IDC**
